Main – 1,657 Sq. Ft. / Second – 905 Sq. Ft. = Total 2,562 Sq. Ft.

The two flex areas in this home give you a lot of options. The flex room on the main floor can become a cozy den or a four-season room – your choice, your way!

The flex space on the second level makes a great play room, study area, Game Boy™ hangout or a computer area. Both areas help the home live “bigger.”

Also, note the large, walk-in pantry, the rear foyer and the adjacent laundry, along with the vaulted ceilings in the great room and master bedroom.
