When it's time to relax at the end of a hectic day, walk into your bedroom, close the door and "finally" be yourself... or watch the sunset while you sip a cup of coffee or a cool glass of lemonade on the covered porch.

Tucked behind the stairs and great room, Bedroom 3 can also be a cozy den with book shelves.

When you walk in the front foyer, the dining area, defined by ceiling detail, is open to the great room and kitchen.
